Aviv Glaser

Customer Success Manager

Phone: 054-4999573 | **Email:** wcwaviv@gmail.com | **Address:** Tel Aviv | ***Portfolio*** | *LinkedIn*

Experienced tech-savvy Customer Success Manager at a B2B SaaS startup. Lead end-to-end onboarding and implementation sessions with large enterprises and stakeholders, help non-technical customers adopt the product, spot expansion opportunities, and support long-term retention and account growth. Seeking a CSM role in the Central District.

WORK EXPERIENCE

Customer Success Manager

EqualWeb

2025 - Present

• Manage hundreds of accounts through monday.com, using automations and AI-assisted workflows to monitor usage, pain points, and account progress, contributing to a 33% reduction in average delivery time from three months to two.

• Convert client and user feedback, technical issues, and feature requests into clear Jira tickets, partner with R&D to prioritize needs and improve usability and adoption.

• Own the customer lifecycle through HubSpot, run kickoff and post-sale meetings, present product capabilities, deliver demos, provide hands-on guidance, and serve as the primary point of contact.

• Coordinate cross-functional work across Sales, Finance, R&D, and Project Management to resolve blockers, align priorities, close information gaps, and keep customer account activity moving smoothly.

JavaScript Developer

EqualWeb

2023 - 2024

• Used AI tools to build scripts and workflows that automated repetitive tasks, reduced manual work, and improved execution speed.

• Applied advanced knowledge of JavaScript, APIs, web architecture, and site performance to bring hundreds of enterprise websites into accessibility compliance, improving digital access for users with disabilities worldwide.

• Developed deep expertise in troubleshooting and debugging, using Google Chrome DevTools alongside source-code analysis to resolve website accessibility barriers.

EDUCATION

Project Management in the AI Era & Preparation for PMP Certification | Technion | *2026, Tel Aviv*

• Gained practical skills in AI project planning, Agile and Waterfall methodologies, Gantt charts, risk management, stakeholder communication, team coordination, budget planning, and schedule management. | *Certificate*

Full-Stack Web Development Course | John Bryce High-Tech Academy | *2021 - 2022, Tel Aviv*

• Built full-stack web applications from scratch using various programming languages, while developing a solid foundation in debugging, deployment, and web architecture. | *Certificate*

B.A. in Education and Communication | Ben-Gurion University of the Negev | *2017- 2020, Be'er Sheva*

• Acquired strong skills in communication, presentation, creative thinking, and learning processes.
